1. Corporate Information

Galane Gold Ltd. (the "Company") operates through its wholly-owned subsidiary, Galane Gold Mines Ltd. which was incorporated under the *Business Corporations Act* (Ontario) on November 15, 2010 and whose principal business activities are the exploration for, development of, and operation of gold mining properties. The Company's registered and head office is located at Suite 1800, 181 Bay St., Toronto, Ontario, Canada.

2. Basis of preparation:

(a) Statement of compliance

The unaudited condensed consolidated interim financial statements (the "Financial Statements") of the Company and all of its subsidiaries as at and for the three and six months ended June 30, 2014 have been prepared in accordance with IAS 34, Interim Financial Reporting, and do not include all of the information required for full annual consolidated financial statements. Accordingly certain information and disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed.

(b) Significant accounting judgments, estimates and assumptions

The preparation of the Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the Financial Statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The particular areas of estimation uncertainty and critical judgments are outlined in detail in the annual audited consolidated financial statements for the year ended December 31, 2013 (the "Annual Financial Statements").

(c) Basis of consolidation

The significant subsidiaries of the Company are accounted for as follows:

	Country of Incorporation	% equity interest	Accounting Method
Galane Gold Mines Ltd.	Canada	100%	Consolidation
Mupane Gold Mines Limited	Mauritius	100%	Consolidation
Gallery Gold Pty Ltd.	Australia	100%	Consolidation
Mupane Gold Mining (Pty) Ltd.	Botswana	100%	Consolidation
The Northern Lights Exploration Company (Pty) Ltd.	Botswana	100%	Consolidation

The Company's other subsidiaries are Galane Gold Botswana (Pty) Ltd. (Botswana) (100% owned) and Shashe Mines (Pty) Ltd. (Botswana) (85% owned).

(d) Functional and presentation currency

The consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company and each of its subsidiaries. All amounts are in U.S. dollars, except where otherwise indicated.

3. Significant Accounting Policies:

These Financial Statements have been prepared following the same accounting policies and methods of computation as the Annual Financial Statements other than as described below due to the adoption of the following accounting standards effective January 1, 2014.

IFRIC 21 – Levies
IFRIC 21 provides guidance on the accounting for levies in accordance with the requirements of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets. The Company adopted IFRIC 21 in its financial statements for the period beginning January 1, 2014 and it did not have a material impact on the financial statements.

4. Future Accounting Policies:

The following new standards and amendments to standards and interpretations which were issued but not yet effective for the quarter ended June 30, 2014, have not been applied in preparing these Financial Statements. They are summarized as follows:

IFRS 9- Financial Instruments

The IASB has issued IFRS 9, Financial Instruments, which is a four-part project proposing to replace IAS 39, Financial Instruments: Recognition and Measurement. The IASB agreed that the mandatory effective date should no longer be annual periods beginning on or after January 1, 2015, but rather be left open pending the finalization of the impairment and classification and measurement requirements. The Company will evaluate the impact of the change to its financial statements based on the characteristics on its financial instruments at the time of adoption.

IFRS 15 – Revenue from Contracts with Customers

In May 2014, the IASB issued IFRS 15, Revenue from Contracts with Customers (IFRS 15). The standard replaces IAS 11 “Construction Contracts”, IAS 18 “Revenue”, IFRIC 13 “Customer Loyalty Programmes”, IFRIC 15 “Agreements for the Construction of Real Estate”, IFRIC 18 “Transfer of Assets From Customers” and SIC 31 “Revenue – Barter Transactions Involving Advertising Services”. IFRS 15 is effective for periods beginning on or after January 1, 2017, permits early adoption, and is to be applied retrospectively. IFRS 15 clarifies the principles for recognizing revenue from contracts with customers. The Company is in the process of evaluating the requirements of the new standard.

IAS 16 – Property, plant and equipment and IAS 38 – Intangible assets

In May 2014, the IASB issued amendments to IAS 16 Property, plant and equipment and IAS 38 Intangible assets. The amendments are effective for annual periods beginning on or after January 1, 2016 and are to be applied prospectively. The amendments clarify the factors in assessing the technical or commercial obsolescence and the resulting depreciation period of an asset and state that a depreciation method based on revenue is not appropriate. The Company is in the process of evaluating the requirements of the new standard.

IFRS 11 – Joint Arrangements

In May 2014, the IASB issued amendments to IFRS 11 Joint Arrangements (IFRS 11). The amendments in IFRS 11 are effective for annual periods beginning on or after January 1, 2016 and are to be applied prospectively. The amendments clarify the accounting for acquisition of interests in joint operations and require the acquirer to apply the principles on business combinations accounting in IFRS 3 Business combinations. The Company is in the process of evaluating the requirements of the new standard.

5. Financial instruments:

The following table presents the carrying and estimated fair values of the Company's financial instruments.

Financial Assets		Carrying and Fair value June30, 2014	December 31, 2013
Cash (level 1 of fair value hierarchy [4])	$	11,225,082	$ 11,239,537
Trade and other receivables [1]		1,150,212	936,392
	$	12,375,294	12,175,929

Financial Liabilities		June30, 2014	December 31, 2013
Accounts payable and accrued liabilities [2]	$	6,253,555	$ 8,726,178
Loans and borrowings [3]		5,791,012	2,795,747
	$	12,044,567	11,521,925

(1) The fair value of trade and other receivables approximates the carrying amount given the short maturity period.

(2) The fair value of accounts payable and accrued liabilities approximates the carrying amount given the short maturity period.

(3) The fair value of loans and borrowings approximates the carrying amount given the short maturity period, and the fair market value rate of interest that it carries.

(4) The levels of the fair value hierarchy are defined as follows:

1. Level 1- there are quoted prices in active markets for identical assets or liabilities.
2. Level 2- there are inputs other than quoted prices that are either directly or indirectly observable for the asset or liability.
3. Level 3- these are inputs that are not based on observable market data.

9. Impairment

	Three months ended June 30, 2014	Six months ended June 30, 2014	Three months ended June 30, 2013	Six months ended June 30, 2013
Mining and Exploration Properties	$ -	$ -	$ 16,867,329	$ 16,867,329
Inventory	-	-	955,264	955,264
	$ -	$ -	$ 17,822,593	$ 17,822,593

a) Mining and Exploration Properties

As at June 30, 2014, there were no indicators that suggested a review of the recoverable amount of the mining and exploration properties was required. As at June 30, 2013, the carrying value of the net assets of the Company exceeded its market capitalization, which is an indicator of potential impairment of the carrying value of its net assets. In addition, prior to the close of the quarter ended June 30, 2013, the gold price declined significantly and has subsequently remained at these lower levels. As a result the Company assessed the recoverable amount of its cash-generating unit (“CGU”), Mupane Gold Mining (Pty) Limited.

Key assumptions

The key assumptions used in determining the recoverable amount (fair value less costs to sell) for the CGU are commodity prices, discount rates, cash costs of production, capital expenditures, foreign exchange rates, and the value of in-situ ounces. The fair value of mining and exploration properties is determined primarily using an income approach based on unobservable inputs, and as a result, is classified within Level 3 of the fair value hierarchy.

The Company’s estimates of future metal prices are determined based on current prices, forward prices and forecasts of future prices prepared by industry analysts. For the June 30, 2013 impairment analysis, the Company estimated a gold price of $1,400 per ounce.

The Company’s estimates of future cash costs of production and capital expenditures are based on the life of mine plan. Costs incurred in currencies other than the U.S. dollar are translated to U.S. dollar equivalents based on long-term forecasts of foreign exchange rates, on a currency by currency basis, obtained from independent sources of economic data.

The discount rate applied to present value the net future cash flows is based on a real weighted average cost of capital. For the June 30, 2013 impairment analysis, a discount rate of 6.25% was used.

The Company valued the potential of in-situ ounces declared in its latest mineral resource statement but not included in the life of mine plan. They were valued based on a review of the current market value of in-situ ounces recognised by the industry.

b) Inventory

As at June 30, 2014 an impairment charge of $ nil (June 30, 2013 - $955,264) was recorded within earnings from mining operations to reduce the carrying value of inventory to its net realizable value.

10. Restoration and rehabilitation provision

		Restoration and rehabilitation provision
At December 31, 2013	$	3,117,685
Accretion during the six month period ended June 30, 2014		159,170

(1) The Company issued an unsecured note to IAMGOLD Corporation ("IAMGOLD") as part of the consideration paid for the purchase of the shares of Gallery Gold Pty Ltd. on August 30, 2011. The terms of the unsecured note were amended on July 18, 2013 to extend the repayment period by 12 months. Details are as follows:

- Initial principal amount $3,800,000
- Interest rate fixed rate of 6% per annum, payable on principal repayment dates
- Principal repayment $1,266,667 on August 30, 2014 and February 28, 2015

(2) The Company acquired seven vehicles for use at the mine for total cost of $364,348 and financed the purchase through capital lease obligations. The capital leases are for a term of 36 months, at a fixed interest rate of 9%, with monthly payments of $9,456 per month principal and interest and a final payment of $98,296.

(3) The Government of Botswana has agreed to the deferral of royalties payable on the sale of gold under the following terms:

- Royalties due to February 2015 to be deferred.
- Repayment of royalties due to February 2015 to commence in July 2015 over 12 months
- Interest to be charged from July 1, 2015 at Bank of Botswana commercial bank prime lending rate plus 5%.

13. Income and Mining Taxes:

The Company estimates the effective tax rate expected to be applicable for the full fiscal year and uses that rate to provide for income taxes in interim reporting periods. The Company also recognizes the tax impact on certain discrete (unusual or infrequently occurring) items, including changes in judgment concerning the probable realization of losses and effects of changes in tax laws or rates, in the interim period in which they occur.

As a result of the effect of utilization of loss carry forwards available to the Company, the Company reported no income tax expense for the three and six months ended June 30, 2014 (three and six months ended June 30, 2013 - $nil). The effective income tax rates vary from the combined Canadian federal and provincial statutory income tax rate of 26.50% for the six months ended June 30, 2014 (six months ended June 30, 2013 – 26.50%) due to the geographical distribution of earnings, which are subject to different tax rates, fluctuations in exchange rates and other non-deductible expenses.

The carrying amount of deferred income tax assets is reviewed at each date of the consolidated statement of financial position and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognized deferred income tax assets are reassessed at each date of the consolidated statement of financial position and are recognized to the extent that it has become probable that future taxable profit will be available to allow the deferred tax asset to be recovered.

Due to the significant decline in the gold price prior to the close of June 30, 2013, the Company reassessed the carrying value of the deferred tax asset. It was considered that it was no longer probable, given the revised life of mine plan, that there will be sufficient taxable profits to utilize all or part of the deferred tax asset. As a result the Company derecognised $1,809,000 of deferred tax asset.

14. Share Capital

(a) Authorized share capital:

As at June 30, 2014, the authorized share capital of the Company consisted of an unlimited number of common shares. All issued shares are fully paid.

(b) Issued share capital:

During the six month period ended June 30, 2014 the Company had the following share transactions:

On April 8, 2014, the Company issued an aggregate of 1,375,000 common shares to the former shareholders of The Northern Lights Exploration Company (Pty) Ltd. ("NLE"). The Company entered into an agreement (the "NLE Agreement") dated July 27, 2011 with the shareholders of NLE (refer to note 17 on related party transactions for Charles Byron) to acquire all of its issued and outstanding shares. NLE owns the rights to a number of exploration licenses near the Company's Mupane Property. On April 7, 2014, the independent members of the Board determined that the resource target for the first milestone in the NLE Agreement was met, waived the requirement to confirm the mineral resource by way of a NI 43-101 technical report and approved the issuance of 1,375,000 common shares by the Company.

On June 15, 2014, in accordance with the Company's share purchase plan ("SPP") 16,836 common shares were issued as Deferred Matching Shares.

During the six month period ended June 30, 2013 the Company had the following share transactions:

On March 22, 2013, the Company issued an aggregate of 2,500,000 common shares to the Chairman and the former CEO of the Company pursuant to the terms of performance share agreements dated August 30, 2011. The associated compensation amount was recognized in 2012.

On June 15, 2013, in accordance with the SPP 21,045 common shares were issued as Deferred Matching Shares.

14. Share Capital (continued):

(c) Stock Options:

The Company has a stock option plan whereby options may be granted to directors, officers, employees and consultants. As at June 30, 2014, a maximum of 5,267,746 options to purchase common shares were issuable under the Company's stock option plan, of which 932,746 remained available for issuance.

(d) Earnings (loss) per share:

The calculation of earnings (loss) per share is based on the following data:

	Three months ended June 30, 2014	Six months ended June 30, 2014	Three months ended June 30, 2013	Six months ended June 30, 2013
Earnings (loss)	$ (694,941)	$ 1,426,114	$ (26,083,598)	$ (30,269,702)
Weighted average number of common shares outstanding for purposes of basic earnings per share	52,542,518	51,917,542	50,885,214	50,883,489
Dilutive deferred share units	-	304,924	-	-
Dilutive options	-	153,000	-	-
Weighted average number of common shares outstanding for the purpose of diluted earnings per share	52,542,518	52,375,466	50,885,214	50,883,489
Earnings (loss) per share				
Basic	$ (0.01)	$ 0.03	$ (0.51)	$ (0.60)
Diluted	$ (0.01)	$ 0.03	$ (0.51)	(0.60)

Basic earnings (loss) per share is computed by dividing the earnings (loss) by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution of outstanding warrants and stock options in the weighted average number of common shares outstanding during the period, if dilutive. For the three months ended June 30, 2014, all instruments were considered anti-dilutive due to the net loss in the period.

(e) Deferred Share Units

The Company has established a deferred share unit plan whereby deferred share units ("DSUs") may be granted to directors, officers, employees and consultants. As at June 30, 2014, a maximum of 5,266,062 DSUs were issuable under the Company's deferred share unit plan, of which 1,323,834 remained available for issuance.

On issuance of the DSUs the fair value is calculated as the quoted share price on date of grant times the number of DSUs issued. The compensation expense is then recognized over the vesting period of the DSUs. The Board at its discretion can determine the vesting schedule applicable to an award of DSUs at the time of award.
