GALANE GOLD LTD.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

(in U.S. Dollars)

For the three and six months ended June 30, 2020 and 2019

1. Corporate Information

Galane Gold Ltd. (the “Company”) operates through its wholly owned subsidiary, Galane Gold Mines Ltd., which was incorporated under the *Business Corporations Act* (Ontario) on November 15, 2010 and whose principal business activities are the exploration for, development of, and operation of gold mining properties. The Company’s registered and head office is located at Suite 1800, 181 Bay St., Toronto, Ontario, Canada.

2. Going Concern

The condensed consolidated interim financial statements were prepared using international financial reporting standards that are applicable to a going concern.

During the six months ended June 30, 2020, several measures have been implemented in Botswana, South Africa and the rest of the world in response to the increased impact from COVID-19. The Company was notified by the Republic of Botswana Government that, as a mining operation, Mupane is deemed an essential operation and is allowed to keep operating during the country’s 28 day lockdown which commenced on April 2, 2020, and was subsequently extended to May 21, 2020. For Mupane to continue in operation it has been working closely with the Department of Mines on protocols to manage the potential for spread of COVID-19 between its employees and in particular, in its underground operations. During this period Mupane production was restricted, although approval was granted on April 28, 2020 to recommence operations while observing compliance with capacity and enhanced operating requirements. The Galaxy project was placed on temporary care and maintenance in late March, as mandated by the Government of South Africa. On April 23, 2020, the Company was notified that Galaxy had been designated as an essential service and can operate at 50% of its normal capacity, with the Company recommencing operations on May 4, 2020 in compliance with the capacity and enhanced operating requirements. On July 13, 2020, the government removed the restrictions relating to the operating capacity, however social distancing protocols are still to be maintained. While the impact of COVID-19 is expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on our business operations, including the duration and impact on our future production, cannot be reasonably estimated at this time and we anticipate this could have an adverse impact on the Company's financial position, results of operation and cash flows. The Company's liquidity and ability to continue as a going concern may also be impacted.

As at June 30, 2020, the Company had a working capital deficiency (current assets less current liabilities) of \$13.2 million compared to a deficiency of \$14.3 million at December 31, 2019.

During the six months ended June 30, 2020, the Company paid, on a timely basis, the 5% royalty to the Government of Botswana on all gold sales in accordance with the terms of the royalty. The royalty expense for the six months ended June 30, 2020 was \$1.0 million, which was funded from cash flows from operations, in addition to \$0.4 million repaid from deferred royalties. The working capital deficiency includes deferred royalties with a total outstanding balance of \$6.6 million now classified as a current liability. While management projects that the current gold price would allow the Company to repay the deferred royalties consistent with the payment schedule agreed with the Government of Botswana in 2018, the Company has entered into discussions with the Government of Botswana to reschedule the outstanding balance. However, with the current focus on the COVID-19 shutdown of non-essential services in the country, these discussions have now been put on hold.

The impact of the COVID-19 pandemic results in material uncertainties which may give rise to significant doubt as to the ability of the Company to continue as a going concern. Because of these uncertainties, there can be no assurance that the measures that management are taking to mitigate the impact of the COVID-19 pandemic will be successful.

GALANE GOLD LTD.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

(In U.S. Dollars)

For the three and six months ended June 30, 2020 and 2019

The ongoing strength in gold prices and positive operating performance at the Mupane mine have resulted in earnings from mining operations of \$2.9 million for the six months ended June 30, 2020, compared to a loss from mining operations of \$0.0 million for the same period in 2019. In addition, cash flow generated from operations for the six months ended June 30, 2020 was \$4.5 million, after royalty payments made in the normal course of business, compared to \$2.0 million for the same period in 2019. The Company has no material commitments for capital expenditures at the Mupane mine as of June 30, 2020.

The current commodity price and exchange rate environment can be volatile, which may have an impact on the Company's cash flows. Despite the higher gold price currently being realized, the Company continues to review its near term operating plans and to take steps to reduce costs and maximize cash flow generated from operations.

These condensed consolidated interim financial statements do not reflect adjustments in the carrying values of the assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used, that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

3. Basis of preparation

(a) Statement of compliance

The unaudited condensed consolidated interim financial statements (the "Financial Statements") of the Company as at and for the six months ended June 30, 2020 have been prepared in accordance with IAS 34, Interim Financial Reporting, and do not include all of the information required for full annual consolidated financial statements. Accordingly, certain information and disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed.

(b) Significant accounting judgments, estimates and assumptions

The preparation of the Financial Statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the Financial Statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are regularly evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The particular areas of estimation uncertainty and critical judgments are outlined in detail in the annual audited consolidated financial statements for the year ended December 31, 2019 (the "Annual Financial Statements").

(c) Functional and presentation currency

The consolidated financial statements are presented in U.S. dollars, which is the functional currency of the Company and each of its subsidiaries. All amounts are in U.S. dollars, except where otherwise indicated.

4. Significant Accounting Policies

These Financial Statements have been prepared following the same accounting policies and methods of computation as the Annual Financial Statements.

GALANE GOLD LTD.

(In U.S. Dollars)

For the three and six months ended June 30, 2020 and 2019

5. Galaxy Share Donation

On March 19, 2019, the Company donated 17% of the issued and outstanding shares of Galaxy Gold Mining (Pty) Limited (“Galaxy”) to Phakamani Foundation Trust (operating as Phakamani Foundation NPC). The donation was made in relation to the terms of the *Mineral and Petroleum Resources Development Act, 2004* of South Africa, together with the *Broad-Based Social-Economic Empowerment Charter for Mining and Mineral Industry, 2018* and the requirement for Galaxy, as holder of existing gold mining rights, to be comprised, directly or indirectly, of at least a 20% shareholding by historically disadvantaged persons (the “BEE Requirement”).

On March 19, 2019, 10% of the issued and outstanding shares of Galaxy Gold Reefs (Pty) Ltd, was donated to a South African community based trust and a South African local employee share scheme. The donation was made in relation to the BEE Requirement.

Because the Company is deemed, for accounting purposes, to control the various trusts, these donations do not give rise to non-controlling interests.

- (1) The Company issued unsecured debentures to certain loan holders of Galaxy and other parties as settlement of amounts previously due on the acquisition of Galaxy in 2015. The original principal amount of the debentures was \$5,650,269 and was originally due on November 20, 2019. The debentures have a fixed interest rate of 4% per annum, compounded annually. \$728,000 of such principal was repaid on September 27, 2019.

In accordance with an amended and restated debenture agreed to between the Company and a debenture holder in the second quarter of 2018: (i) \$3,249,433 of the principal amount of debentures is repayable on November 20, 2021 and is convertible into common shares at a price of C\$0.15 per common share, based on a pre-determined exchange rate; (ii) interest is convertible into common shares, based on a pre-determined exchange rate, at a price equivalent to the greater of C\$0.15 and the Discounted Market Price (as defined by the TSX Venture Exchange) at the time of conversion; (iii) the Company has a right of forced conversion for the principal where the trading price of the common shares exceeds C\$0.15 for 10 consecutive trading days; and (iv) commencing January 1, 2018, interest for a calendar year is due and payable on March 31 of the subsequent year, with the first such payment being due on March 31, 2019. The first payment of interest under the rescheduled agreement was made in April 2019.

Pursuant to an amending instrument dated September 30, 2019: (i) \$1,672,836 of the principal amount of the debentures is now repayable on November 20, 2021, (ii) such amount of principal is convertible into common shares at a price of C\$0.20 per common share, based on a pre-determined exchange rate, with interest on such principal convertible into common shares, based on a pre-determined exchange rate, at a price equivalent to the greater of C\$0.20 and the Discounted Market Price at the time of conversion, subject to acceptance of the TSX Venture Exchange, and (iii) the Company has a right of forced conversion for such principal where the trading price of the common shares exceeds C\$0.20 for 10 consecutive trading days. On December 15, 2019 the Company prepaid an additional \$838,486 of the principal and \$12,517 of interest on the debentures subject to this amending instrument.

- (2) The Government of Botswana royalties were all recorded as current liabilities at June 30, 2020. On March 19, 2018 an agreement was reached with the government regarding royalties payable on the sale of gold and subsequent repayment thereof under the following terms:
- \$8,398,709 of royalties deferred at December 2017 were to be repaid as follows:
 - principal repayments of \$21,593 per month for ten months commencing March 2018 (all paid);

GALANE GOLD LTD.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

(In U.S. Dollars)

For the three and six months ended June 30, 2020 and 2019

- principal repayments of \$101,593 per month for 12 months commencing January 2019 (all paid); and
- the remaining balance to be repaid in 12 equal monthly payments commencing January 2020;
- interest to be charged at Bank of Botswana commercial bank prime lending rate plus 5%, applied on a simple interest basis, equating to \$28,407 per month over the 34 month repayment period; and
- the deferral amount is unsecured.

The Company is currently engaging with the Government of Botswana to negotiate a rescheduling of the repayments due in 2020. As yet no agreement has been reached between the parties. The Company repaid \$200,000 in each of January and February 2020.

- (3) The Company acquired a Komatsu Excavator in March 2019 and financed \$189,000 of the acquisition costs, and acquired a Remote GHH Loader in November 2019 and financed \$591,000. The term of the loans is 24 months, with payments of approximately \$8,600 and \$18,600 respectively coming due each month including payment of the principal and interest of between 8.25% and 8.5%. The loan is secured by the assets related to such loans.

On adoption of IFRS 16, the group recognized lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of IAS 17 *Leases*. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate as at January 2019. The weighted average lessee’s incremental borrowing rate applied to the lease liabilities on January 1, 2019, was 8.5%. A Right of use liability of \$1,896,294 was recognized on the initial application at January 1, 2019

- (4) On October 2, 2018, the Company entered into a loan agreement with Barak Fund SPC Limited (“Barak”) with respect to a \$5,000,000 secured loan facility (the “Barak Facility”), for a term ending three years from the date of the first drawdown and bearing interest at a rate of 14% per annum. The funds have been used towards the refurbishment and expansion of the processing facilities and restarting underground mining operations at the Galaxy gold mine in Barberton, South Africa. The Company has agreed to pay to Barak, or its nominee, 0.75% of the net proceeds accruing to Galaxy under an off-take agreement covering the annual gold concentrate production of the Agnes gold mine in Barberton owned and operated by Galaxy, after taking into account all attributable logistics and freight costs, State Royalties (as defined in the Barak Facility) and value-added tax (if applicable). The Company received the funds from drawdown requests totalling \$5,000,000 under the Barak Facility up to December 31, 2019, with the first repayment of \$66,218 remitted during the three months ended March 31, 2020. As the Company was in breach of the current ratio covenant at reporting date, the entire outstanding balance of the loan facility has been classified as a current liability in accordance with IFRS 7.

12. Income and Mining Taxes

The Company estimates the effective tax rate expected to be applicable for the full fiscal year and uses that rate to provide for income taxes in interim reporting periods. The Company also recognizes the tax impact on certain discrete (unusual or infrequently occurring) items, including changes in judgment concerning the probable realization of losses and effects of changes in tax laws or rates, in the interim period in which they occur.

As a result of the effect of utilization of loss carry forwards available to the Company, the Company reported no income tax expense for the three and six months ended June 30, 2020 (three and six months ended June 30, 2019 - \$nil). The effective income tax rates vary from the combined Canadian federal and provincial statutory income tax rate of 26.50% for the three and six months ended June 30, 2020 (three and six months ended June 30, 2019 – 26.50%) due to the geographical distribution of earnings, which are subject to different tax rates, fluctuations in exchange rates and other non-deductible expenses.

13. Share Capital

(a) Authorized share capital:

As at June 30, 2020, the authorized share capital of the Company consisted of an unlimited number of common shares. All issued shares are fully paid.

(b) Issued share capital:

As at June 30, 2020, 223,400,910 common shares are issued and outstanding.

The Company did not issue any common shares during the six month period ended June 30, 2020, or the six month period ended June 30, 2019.

(c) Stock Options:

The Company has a stock option plan whereby options may be granted to directors, officers, employees and consultants. As at June 30, 2020, a maximum of 22,340,091 options to purchase common shares were issuable under the Company's stock option plan, of which 9,640,091 remained available for issuance.

The following is a summary of stock options outstanding as at June 30, 2020 and December 31, 2019 along with changes during the periods then ended:

(d) Earnings (loss) per share:

The calculation of earnings (loss) per share is based on the following data:

	Three months ended June 30, 2020	Six months ended June 30, 2020	Three months ended June 30, 2019	Six months ended June 30, 2019
Earnings (loss) attributable to Galane shareholders	\$ (390,754)	\$ 1,268,822	\$ 331,471	\$ (1,888,037)
Weighted average number of common shares outstanding for purposes of basic earnings per share	223,400,910	223,400,910	200,804,760	200,804,760
Dilutive options, warrants and DSUs	-	23,693,006	-	-
Weighted average number of common shares outstanding for the purpose of diluted earnings per share	223,400,910	247,093,916	200,804,760	200,804,760
Earnings (loss) per share				
Basic	\$ (0.00)	\$ 0.01	\$ 0.00	\$ (0.01)
Diluted	\$ (0.00)	\$ 0.01	\$ 0.00	\$ (0.01)

Basic earnings (loss) per share is computed by dividing the earnings (loss) by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution of outstanding warrants, stock options, deferred share units or convertible debentures in the weighted average number of common shares outstanding during the period, if dilutive. For the three and six months ended June 30, 2020, the dilutive impact of these instruments has been recognised, while for the three and six months ended June 30, 2019, all instruments were anti-dilutive.

(e) Deferred Share Units

The Company has established a deferred share unit plan whereby deferred share units (“DSUs”) may be granted to directors, officers, employees and consultants. As at June 30, 2020, a maximum of 13,262,888 DSUs were issuable under the Company’s deferred share unit plan, of which 4,967,060 remained available for issuance.

During the three and six month periods ended June 30, 2020 the Company did not issue any shares under the Company’s deferred share unit plan.
